SPCA of Luzerne County's Confidentiality/ Conflict of Interest Policy for Volunteers

Volunteers are responsible for maintaining confidentiality of all proprietary or privileged information to which they are exposed while serving as volunteers, whether this information involves staff members, volunteers, clients, donors, animals or the public. Failure to maintain confidentiality may result in termination or other corrective action. All volunteers will be required to sign the Confidentiality/Conflict of Interest Agreement as a condition of volunteering.

Confidential information includes but is not limited to: animal, client or donor information from our computer system, whether gained through the course of volunteer service or from other internal sources, shelter photographs, all records, files, forms, applications, mailing lists, passwords, security codes, correspondence, messages or any other entities belonging to the SPCA and/or bearing the SPCA's logo or name. Such information is the sole property of the SPCA and may not be disseminated, used, published or sold without the written consent of the Development Director or Shelter Manager.

Volunteers are not permitted to represent themselves as working on behalf of the SPCA to the public, media, social media or to any other organization without authorization from the Development Director or Shelter Manager.

Volunteers are prohibited from engaging in any activity religious or political while acting as a representative of the SPCA of Luzerne County. This activity can jeopardize the shelter's ability to continue to obtain donations and its status as an Internal Revenue Code 501c3 charitable organization.

Volunteers will not use their association with the shelter to promote activities related to the volunteer's outside personal or professional interests, including, but not limited to soliciting business, fundraising or other personal causes.

If a volunteer is at odds with the shelter's philosophy, policies, procedures or past, proposed or existing state of affairs, the volunteer will only discuss such differences with the Volunteer Coordinator or immediate supervisor according to the procedure outlined in the Volunteer Manual.

Volunteer must not discuss shelter problems/issues with those, including, but not limited to non-supervisory staff, other volunteers, clients, family or friends, or the public, as this undermines internal morale and external perception of the shelter. When presented through proper channels, the SPCA will take the appropriate steps to help resolve the issue.

Any violations of this policy may result in immediate dismissal and further action.

I have read and understand the above agreement and agree to work as a volunteer and abide by all policies and procedures.

Volunteer Responsibilities and Guidelines

- Volunteers must be at least 15 years of age. Any volunteer under 18 years of age must have an adult with them who has also completed the volunteer orientation program. That adult must remain in the area the volunteer is working at all times.
- Volunteers are required to wear appropriate attire: long pants, sneakers or other closed-toe shoes with non-slip sole, no tank tops, no piercings.
- Individuals who live in adult care facilities, or are part of an adults with special needs program, or participate in an adult treatment program, must be accompanied by a case worker or supervisor who has also completed the volunteer orientation, at all times.
- New volunteers can request to work with a mentor to assist in their acclimation of the volunteer program. Upon request the Volunteer Coordinator will arrange for an experienced volunteer to mentor with the new volunteer. Volunteers wishing to work with small animals **MUST** (no exceptions) work with a mentor first.
- Each time you arrive at the shelter, please make sure to sign in and out at the computer station located in the Education Room. All volunteers are required to sign in and out each time they work, as we are required to report volunteer hours to the board and other agencies.
- Volunteers must review all information posted at the computer counter when signing in, as well at the event.
- All volunteers must wear an SPCA Volunteer badge at all times when working in the shelter. These items are important as they identify you as a volunteer to the staff and to the public.
- If attending a Special Event or have been given a specific time and date for volunteering, please report to these duties on time. Failure to do so may result in not being able to utilize your services at that time.
- Volunteers are expected to be courteous to other volunteers, staff, and the public at all times.
- Volunteers are not to guess at procedure, or animal information. They are to ask a staff member.
- If you notice inappropriate or aggressive behavior (growling, showing teeth, hissing) in any animal, please see a staff member immediately to report this information. Do not interact with any animal that you do not feel comfortable with.
- All volunteers are required to use all caution and established procedures when working with shelter animals. If a volunteer is bitten or scratched, the front office staff **MUST** be notified immediately. A bite may be an indication of an animal's health or behavioral problem and must be checked out. An accident report **MUST** be filled out, as required by our insurance carrier, and must be obeyed. For the safety of the animal, visiting public, volunteers and staff, all bites must be reported.
- Seeking Treatment: If you choose to seek treatment for an injury incurred at the shelter or at a shelter-sponsored event, please follow these instructions:
 1. Report the injury to the front office supervisor on duty or to the Volunteer Coordinator
 2. Fill out an accident report
 3. Determine if you need further medical attention
- **NEVER let two shelter animals intermingle.** We do not allow this because of the risk of injury to the animals in our care, the risk of injury to our volunteers and staff, and possibility of disease transmission.

- **You MUST read the Cage Card before handling any animal. Do not handle any animal that has not been at the shelter for at least 48 hours.** Many are very frightened when they first come in with all the new sights, smells, and sounds. With all this stimuli, they scare easily and injury may result.
- **Animals that have just had surgery are not to be taken out of their kennels, animals with pink, blue, orange or white cards are also not to be taken out of their cages by volunteers.** Pets who have just had surgery or are waiting for surgery need to be left in their kennels in order for appropriate staff to monitor them or retrieve them when needed.
- You may play with a dog outside in the courtyard with a toy, but please do not give the dogs toys or rawhides to play with inside their kennel. If you have used a toy to play with a dog, it needs to be sanitized before you allow another dog to play with it. Fill up a sink with bleach and water and let the toy soak for at least fifteen minutes, then rinse. In the meantime, you can choose another toy for the next dog. We have had many dogs consume tennis balls and other toys which is a dangerous health hazard so please be vigilant and cautious. Please be sure that there are no other dogs in the courtyard before you take the dog outside.
- The staff does the formal adoption procedure, but you can help potential adopters find the right animal to suit their lifestyle. All animals are spayed and neutered before they go home with their new families – this may delay an adoption. Once a person is truly interested in a particular pet, please direct them to the adoption office for an application. Do not make promises or suggestions in regard to application process.
- In the adoption lobby, there is literature dealing with specific behavior problems or animal issues. Some examples of topics are: housebreaking, litter training, introducing new pets, etc. If anyone you speak with could utilize this information, please refer him or her to this area of the shelter. Anyone is free to take this literature home.
- Volunteers are not permitted to handle the animals in the evaluation kennel, isolation kennel, incoming cat room, bite room or education room (where time clock is located). These animals are in these places for a reason and should only be handled by experienced personal.
- We do not allow adopters to have cats declawed but often have cats here that have already been declawed. Declawed cats tend to be a bit more insecure than cats that have not had this operation. They are sometimes more likely to bite because their first line of defense is gone (their claws). This does not mean that they shouldn't be handled but you should exercise caution.
- If you want to give an animal a bath/groom, please discuss with the Volunteer Coordinator to make arrangements. Be sure to put wet towels in the laundry room and clean up the grooming area. When you are done giving an animal a bath and he or she is returned to their kennel, please make a note on the Cage Card. It should look like this: **Gave Bath 2/14/21 Donna Jones (volunteer).**
- To prevent disease you must clean up after yourself and the animal that you are with.
- Make certain that you are always returning an animal to its proper kennel after you have had it out.

We appreciate your support of our shelter. Thank you for taking time out of your busy schedule to help us. Together we can make life better for the animals in Luzerne County.

*** By signing below, I acknowledge that I understand and agree to follow the above guidelines.*
